-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 38,39,45-47,49,50 and 56-58 are rejected under 35 U.S.C. 103(a) as being unpatentable over either UK. Pat. 848 to Melville or Banner in view of Quigley, Tabe or Goodwin. Both Melville and Banner show the claimed system but silent on their type of means for motoring. Quigley, Tabe and Goodwin all show the claimed means for monitoring. It would have been obvious to one of ordinary skill in the art at the time the invention was made to modify either Melville or Banner to comprise a means for monitoring, as taught by Quigley, Tabe or Goodwin, to enable automatic release of their means for releasing in response to a fire.

Claims 48 and 59 are rejected under 35 U.S.C. 103(a) as being unpatentable over either Melville or Banner and either Quigley, Tabe or Goodwin, as applied to claims 38 and 59 above, and further in view of Krupal. Krupal shows a ladder with rung having projections. It would have been obvious to one of ordinary skill in the art at the time the invention was made to provide either Melville or Banner

with a ladder having rungs with projections, as taught by Krumal, for spacing the ladder from a building.

Claims 40-44 and 51-55 have been withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 6/5/06.

Applicant's election with traverse of the photoelectric sensor in the reply filed on 6/5/06 is acknowledged. The traversal is on the ground(s) that – none given --. This is not found persuasive because a reason for traversal should be given.

The requirement is still deemed proper and is therefore made FINAL.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened

statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
